Journal of Fluid Mechanics Volume 515 25 September 2004

E. López-Pagés, C. Dopazo & N. Fueyo	Very-near-field dynamics in the injection of two-dimensional gas jets and thin liquid sheets between two parallel high-speed gas streams	1
B. T. Tan, M. C. Thompson & K. Hourigan	Flow past rectangular cylinders: receptivity to transverse forcing	33
G. W. Wake, G. N. Ivey, J. Imberger, N. R. McDonald & R. Stocker	Baroclinic geostrophic adjustment in a rotating circular basin	63
S. Kurien, M. A. Taylor & T. Matsumoto	Isotropic third-order statistics in turbulence with helicity: the 2/15-law	87
N. Peake & E. J. Kerschen	Influence of mean loading on noise generated by the interaction of gusts with a cascade: downstream radiation	99
J. Le Sommer, G. M. Reznik & V. Zeitlin	Nonlinear geostrophic adjustment of long-wave disturbances in the shallow-water model on the equatorial beta-plane	135
J.-P. Matas, J. F. Morris & É. Guazzelli	Inertial migration of rigid spherical particles in Poiseuille flow	171
P. J. Dellar	Quasi-two-dimensional liquid-metal magnetohydrodynamics and the anticipated vorticity method	197
M.-H. Wu, C.-Y. Wen, R.-H. Yen, M.-C. Weng & A.-B. Wang	Experimental and numerical study of the separation angle for flow around a circular cylinder at low Reynolds number	233
R. Zenit, Y. H. Tsang, D. L. Koch & A. S. Sangani	Shear flow of a suspension of bubbles rising in an inclined channel	261
P. Yue, J. J. Feng, C. Liu & J. Shen	A diffuse-interface method for simulating two-phase flows of complex fluids	293
A. Muschinski, R. G. Frehlich & B. B. Balsley	Small-scale and large-scale intermittency in the nocturnal boundary layer and the residual layer	319
P. A. Blythe & P. G. Simpkins	Fibre coating: non-unique solutions at small capillary numbers	353
I. Eames, J. C. R. Hunt & S. E. Belcher	Inviscid mean flow through and around groups of bodies	371
B. Hof, A. Juel, L. Zhao, D. Henry, H. Ben Hadid & T. Mullin	On the onset of oscillatory convection in molten gallium	391
M. H. Nielsen, L. Pratt & K. Helfrich	Mixing and entrainment in hydraulically driven stratified sill flows	415
